

Date/Time	Name	Title
2/1/2017 19:00	Mixer and Poster Session	A comparison of plant attributes among cover crop varieties
2/1/2017 19:00	Mixer and Poster Session	A Habitat Suitability Analysis of the Red Wolf across its Historic Range
2/1/2017 19:00	Mixer and Poster Session	A Novel Approach for Detecting Minute Electrical Fields Where Blue Catfish (<i>Ictalurus furcatus</i>) and Flathead Catfish (<i>Pylodictis olivaris</i>) Surface When Electrofishing
2/1/2017 19:00	Mixer and Poster Session	An Applied Learning professional internship conducting educational outreach programs and Fisheries research: A cooperative learning bridge between Missouri Department of Conservation and Missouri Western State University (MWSU).
2/1/2017 19:00	Mixer and Poster Session	Applied Learning in Undergraduate Education: Incorporating Geospatial Technology in Undergraduate Courses and Research in Mammalogy
2/1/2017 19:00	Mixer and Poster Session	Applied Learning through a Professional Internship, with Chillicothe, Missouri Department of Conservation Resource Sciences Fisheries Crew
2/1/2017 19:00	Mixer and Poster Session	Applied learning through professional internships: Fisheries resource management with the Missouri Department of Conservation
2/1/2017 19:00	Mixer and Poster Session	Applied learning through professional internships: Wildlife management internship with Missouri department of Conservation
2/1/2017 19:00	Mixer and Poster Session	Avian Nest Site Selection and Reproductive Success
2/1/2017 19:00	Mixer and Poster Session	Battling Invasive Plants in Missouri Forests
2/1/2017 19:00	Mixer and Poster Session	Blufftop Glade Restoration: Not all cedars are bad!
2/1/2017 19:00	Mixer and Poster Session	Changes in isoprene emission and oxidant-antioxidant balance in senescing pin oaks in Missouri
2/1/2017 19:00	Mixer and Poster Session	Columbia College Environmental Science Club
2/1/2017 19:00	Mixer and Poster Session	Comparing the Home Ranges of Male and Female Ornate Box Turtles (<i>Terrapene ornata</i>) and Three-Toed Box Turtles (<i>Terrapene carolina triunguis</i>) in Johnson County, Missouri
2/1/2017 19:00	Mixer and Poster Session	Conducting educational outreach programs as a state park interpreter: An Applied Learning cooperative between Wallace State Park and Missouri Western State University.
2/1/2017 19:00	Mixer and Poster Session	Development and Evaluation of a Less Labor Intensive Vegetation Monitoring Method to Estimate Moist Soil Seed Production that Compliments Current Management Activities
2/1/2017 19:00	Mixer and Poster Session	Did You See the Elk? Results from On-Site Visitor Surveys at the Missouri Department of Conservation's Elk Tour Loops

2/1/2017 19:00	Mixer and Poster Session	Effectiveness of a constructed "off-line" sedimentation basin for contaminated sediment mitigation, Big River, southeast Missouri
2/1/2017 19:00	Mixer and Poster Session	Engineered Log Structures used for bank stability in an Ozarks stream, Missouri
2/1/2017 19:00	Mixer and Poster Session	Fatty Acid Testing of Fish Found in the Mississippi River
2/1/2017 19:00	Mixer and Poster Session	Feasibility of Tomato Seed Germination and Sustainability of Organic Farming in the Desert Climate of Ras Tanura, Saudi Arabia
2/1/2017 19:00	Mixer and Poster Session	From Fescue to Prairie: 30 Years of Ecosystem Restoration
2/1/2017 19:00	Mixer and Poster Session	Fungal-Bacterial Ratio as an Indicator of Forest Soil Health in Single-Tree Selection and Clearcut Harvests
2/1/2017 19:00	Mixer and Poster Session	Geomorphic effects of valley disturbance by historical rail beds on headwater streams, Mark Twain National Forest
2/1/2017 19:00	Mixer and Poster Session	Glade Restoration Techniques
2/1/2017 19:00	Mixer and Poster Session	Groundcover Responses Following 8 Years of Glades Restoration Management in Central Missouri
2/1/2017 19:00	Mixer and Poster Session	Habitat Use by State Endangered Blanding's turtle (<i>Emydoidea blandingii</i>) in Squaw Creek National Wildlife Refuge, Missouri.
2/1/2017 19:00	Mixer and Poster Session	Healthy Yards for Clear Streams: A Program to Help Communities Meet the EPA Stormwater Phase II Rule
2/1/2017 19:00	Mixer and Poster Session	History of human modification on Big Barren Creek, Southeast Missouri
2/1/2017 19:00	Mixer and Poster Session	Invertebrate communities in Missouri's grasslands: are prairie reconstructions working for bees and grasshoppers?
2/1/2017 19:00	Mixer and Poster Session	Lead contamination in roadside soils and road sediment in Springfield, Missouri
2/1/2017 19:00	Mixer and Poster Session	MO DIRT - Missourians Doing Impact Research Together - A project to examine the soil-climate interface with citizen scientists
2/1/2017 19:00	Mixer and Poster Session	New locality record and habitat characteristics for <i>Cambarus maculatus</i> (Decapoda: Cambaridae)
2/1/2017 19:00	Mixer and Poster Session	Non-lethal Methodology for Testing Preferences and Tolerance with the Endangered Topeka Shiner (<i>Notropis topeka</i>)
2/1/2017 19:00	Mixer and Poster Session	Observed and predicted patterns of water temperature in trout streams in the Ozark Mountains
2/1/2017 19:00	Mixer and Poster Session	Outreach program to monitor beach erosion in Treasure Beach, South coast Jamaica
2/1/2017 19:00	Mixer and Poster Session	Polycyclic aromatic hydrocarbon (PAH) distribution in sediments in an urban detention basin system, Springfield, Missouri

2/1/2017 19:00	Mixer and Poster Session	Prescribed burning effects on soil conditions in Mark Twain National Forest, southeast Missouri Ozarks.
2/1/2017 19:00	Mixer and Poster Session	Prescribed fire promotes landscape-scale ground flora compositional shifts
2/1/2017 19:00	Mixer and Poster Session	Quail and Upland Wildlife Federation (QUWF) and Missouri Department of Conservation (MDC) Partnering for Wildlife and MO Landowners
2/1/2017 19:00	Mixer and Poster Session	Role of discharge in moderating temperature in Missouri streams
2/1/2017 19:00	Mixer and Poster Session	Seasonal Population Characteristics of Blue Sucker <i>Cyprinus elongatus</i> within Large Missouri and Mississippi River Tributaries
2/1/2017 19:00	Mixer and Poster Session	Small Mammal Richness in Areas of High and Low Anthropogenic Disturbances at Pertle Springs, Johnson County, Missouri
2/1/2017 19:00	Mixer and Poster Session	Stream channel stability and human modification of Big Barren Creek, Mark Twain National Forest, Southeast Missouri
2/1/2017 19:00	Mixer and Poster Session	Survey of Wintering Birds at Camp Clark Training Site
2/1/2017 19:00	Mixer and Poster Session	The effects of prescribed fire on physical and chemical properties of forest soils commonly found in the Missouri Ozark Highlands.
2/1/2017 19:00	Mixer and Poster Session	The Effects of the 2011 Birds Point-New Madrid Levee Breach on Swamp Rabbits (<i>Sylvilagus aquaticus</i>) Inhabiting the Birds Point-New Madrid Floodway
2/1/2017 19:00	Mixer and Poster Session	The Missouri Ecological Site Project: Correlating Soil Map Units to Pre-Settlement Vegetative Communities for Conservation Planning and Soil Health Monitoring
2/1/2017 19:00	Mixer and Poster Session	The Relationship of Urbanization and Nutrient Impact on Algae Growth at Little Blue River of Kansas City, Missouri
2/1/2017 19:00	Mixer and Poster Session	Urban Wildlife Management – Three years of Canada goose population management on Missouri Western State University campus
2/1/2017 19:00	Mixer and Poster Session	Using HEC-RAS as a tool to better understand river behavior, and the impact of remediation/engineered structures in and around rivers.
2/1/2017 19:00	Mixer and Poster Session	Using LiDAR to Assess Stream Quality and Riparian Zone Management in Priority Geographies
2/1/2017 19:00	Mixer and Poster Session	Variation In Soil Carbon Across an Oak-Pine Composition Gradient
2/1/2017 19:00	Mixer and Poster Session	Wildlife Hazard Assessment at the Jefferson City Memorial Airport
